

Smt. Liji T.M.

Smt. Liji T.M. is presently working as Scientific Assistant (Grade – B) in the National Centre for Earth Science Studies (NCESS), Trivandrum. She is actively engaged in the maintenance and management of the Central Chemical Laboratory (CCL) attached to the Hydrological Processes Group of the Centre. She operates many sophisticated analytical instruments in the laboratory like CHNS- Analyser, TOC - Analyser, Atomic Absorption Spectrophotometer (AAS), Gas Chromatograph etc. She has engaged in the major, trace and nutrient elemental analysis of soils, sediments and water samples for many externally and internally funded projects of NCESS. She is very meticulous and thorough about the operational procedures of many State – of - the – art instruments, software’s and their applications. She has very good potential to shoulder higher responsibilities in the management of advanced analytical facilities of any R&D institutes .
