

Ms. Rakhi Kumari

Ms. Rakhi Kumari is Scientific Assistant at INCOIS, Hyderabad. She has played a major role in generating and disseminating Ocean State Forecast (OSF) information to a wide user community, over the last decade. She has closely interacted with the user communities like fishermen, Indian Coast Guard, Indian Navy, marine police, shipping industries etc. along the Indian coast ensuring receipt of the forecast information, as per their requests. As of now the dissemination covers approx 16 lakhs users through various modes like website, emails, SMS, radio, TV, Whatsapp, Electronic Display Board (EDB), etc. She has prepared a technical report on OSF users statistics based on data collected over a long period of time. She also conducted user awareness and interaction workshops along the coastal belt to advise the fishermen regarding the usage of these products for their benefit in their day to day life and to improve the efficiency of their operations. She has contributed significantly and ensured the last mile connectivity during cyclones and other extreme situations, running various models, taking decision based on the forecast, comparing with real time data and supporting the scientists in the team.
